- Calving Ease ☆☆☆
- Selling full possession, ½ semen interest
- Easy fleshing Julian B571 son, masculine and wide topped excellent herdsire prospect
- Offering exceptional calving ease rankings in top 2% CED, 8% BE
- Terrific maternal traits ranking in top 1% HPG, 6% ME, 8% CEM, ST
- Seasoned donor Dam 9811 with 102.8 MPPA and 104 AWR, 103 Avg MB ratio – brings a whole lot of longevity and maternal power into play
- Get the reliability of time-tested and proven genetics in a top bull

These coming 2 yr-old virgin bulls have never been offered for sale before and were specifically picked and developed to sell in this sale, complementing the sale of our yearling embryo progeny. The majority of these bulls were raised by 1st and 2nd calvers. After weaning they were developed and ratioed against the entire group of bulls on test last winter. Their Carcass Data was obtained with their contemporaries last February. These coming 2 yr-olds, moderate framed and loaded with calving ease, were grown out on pasture from yearling age to late last fall and over winter were fed a high roughage diet.

13	-3.7	23	48	19	31	2	10	6	11	0.04	0.05	0.00

- Calving Ease ☆☆☆
- Well balanced bull much like his sire whose sons have been highly sought after in our sales
- Due to the young age when Carcass Scanned last spring, the scan results on bull V179 did not adjust or ratio. Actual %IMF was 3.00, actual REA was 12.90
- Out of an excellent female line with rock solid cow family history

22 MESSMER BANDOLIER V094 [OSF]
